

# Carol Dyer

In '67 I graduated from UTEP and went to work for Lockheed Electronics at NASA in the Houston area. In '68 I returned to El Paso and worked for IBM as a systems engineer. Two years later, I married Bill Meehan who had also been working for IBM; but by 1970, he was an agent with the FBI. From 1970 to 1981 we lived in Miami, Florida; Chicago, Illinois; Springfield, Virginia; Muskogee, Oklahoma; Monterrey, California; Houston, Texas; and finally Woodbridge, Virginia.

We have been in the same home in Woodbridge for 32 years, raising our family, two boys and two girls. All four children are now married and we have seven grandsons and three granddaughters. Our oldest lives in Pharr, Texas (near McAllen) with his wife and four sons; our youngest, in Charlotte, N.C. with her husband and two sons; our others, locally with their spouses and children. Even though we are retired, we have not been able to do the travelling we would like. My mom lived with us for her last seven years, and within a couple of years of her passing, we started full time day-care for our now four year old granddaughter, Fiona. Maybe, in another year or two, we can travel around the country. So far, thank God, we still have good health to do that.
